Hi Bonnie, suggest leaving Christine out of the loop. She's chiming in but at present she's not involved with site updates.

Subject: suggestions for the Gold King Mine Website

Hi Jennifer,

I just wanted to let you know that Region 9 has a few suggestions for updating the Gold King Mine Website. Our PAD, Kelly Zito, has discussed these ideas via email with Liz Purchia. If you agree with these ideas, will you please give the ok to Christine Dibble and Jeff Morin, who are working on the site. Many thanks and best of luck with this effort!

Some of our specific suggestions are:

- more information on the main page - some bullets on facts/figures, some images and a bit more about the sampling sites...
- PR should be in a banner, or a large part of the text posted on the main page.

- map - include a map of the area on home page
